SUMMARY

To work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization. With a keen interest in backend technologies, I aspire to broaden my knowledge in this area. Strong problem-solving skills and ability to work effectively in a team-based environment.

SKILLS

- JavaScript/TypeScript
- HTML/ CSS/ SCSS
- Bootstrap
- React Native
- React JS
- PHP/ Laravel
- Tailwind CSS
- Next JS

WORK EXPERIENCE

TechJar Pvt Ltd

Frontend Developer • February 2024 – August 2024

- Involved in development of interactive and responsive web app using NEXT JS and CHAKRA UI.
- Create reusable UI components ensuring consistency across the application while speeding up the development process.
- Collaborated closely with UI/UX designers and backend developers to implement pixel-perfect UI designs and integrate RESTful APIs.
- Utilized React Query for efficient data fetching, caching, and synchronization of server state, leading to improved user experience and reduced loading times.

Techart Trekkies Pvt Ltd

React Developer • September 2021 - January 2024

- Collaborate with cross-functional teams to identify and prioritize features and requirements.
- Plan website development, converting UI mockups into working code.
- Worked on projects like Ticketing System, School LMS and Logistics software as a react developer.
- Collaborated with the UI/UX design team to implement visually appealing and user-friendly interfaces, enhancing overall application usability.
- Involved in various Laravel websites as well and created interactive websites.
- Worked on mobile application development in React Native and contributed in building UI blocks
- Took part in bug fixes and minor feature add in the existing backend code in Laravel.
- Guided junior developers and interns in front-end technologies, providing hands-on assistance, code reviews, and constructive feedback.

Mokshya Tech & IT Solutions

Full Stack Developer Intern • March 2021 – June 2021

- Collaborated in the development of responsive and visually appealing user interfaces using React.
- Integrated RESTful APIs to fetch and update data in real-time, enhancing application functionality.
- Involved in backend development using NodeJS

EDUCATION

Master in Data Science & Computational Intelligence

Softwarica College of IT & E-Commerce • 2022–Present

Bsc Hons in Computing

Softwarica College of IT & E-Commerce

• 2017–2020

PROJECTS

ImagineSys [School LMS Software]

- Worked in a project to develop a feature-rich School LMS software using React.js
- Implemented features for course management, student enrollment, and grade tracking.
- Designed an intuitive user interface for both educators and students, optimizing the learning experience.
- Utilized Redux for state management, ensuring efficient data flow within the application.
